Snap-N-Secure®

Securing a pallet or crate has never been easier. The patented Snap-N-Secure can be applied to steel or poly banding up to 3/4" in width with clip sizes up to 1-1/4" long. The Snap-N-Secure is the first pallet & crate seal which can be applied without the use of any tool. Simple hand pressure is all that is required to lock the seal in place.

Any tampering attempt will cause the high strength polycarbonate to crack at predetermined indication points. Aggressive tampering will cause the housing to shatter and reveal tampering as it is impossible to reassemble or hide tampering of the uniquely printed security seal.

Can also be used in combination with Tamper Evident Pallet Tape or Pallet Covers to further deter pilferage.

Specifications & Features:

- High Strength Polycarbonate material
- Each component marked with serial number
- Custom printing available
- Barcoding optional
- Compatible with Steel or Poly banding up to 3/4" wide
- Banding clips up to 7/8" wide x 1-1/4" long (crimped)
- Tool-less application
- Stock item or Custom printed - Stock is marked SECURED and uniquely serial numbered
- Packed: 50/box 250/case
Box: 21" x 3-1/4" x 7-1/2" **Case:** 22" x 16" x 8"
- Weight: 15 lbs per case

Installation Instructions:

- Position Snap-N-Secure under banding clip

- Use hand pressure to "snap" hinged cover to base

- Verify seal is locked, indicators will slightly protrude ensuring seal is fully closed. Record seal number.
