

SECURITY TAPE

SECURITY Tape when applied to cardboard surfaces leaves noticeable residue and causes fiber tear of the cardboard when removed. Traceability is achieved through the use of serial numbers occurring every nine inches throughout the roll. Easily identified evidence if a tamper attempt is made makes the SECURITY TAPE an effective pilferage deterrent. Increase customer satisfaction with guaranteed complete packaging.

APPLICATIONS

- ↖ ↗ Interior or exterior applications
- ↖ ↗ Asset tracking and ID labels
- ↖ ↗ Automated teller cash cassettes
- ↖ ↗ Safety and emission decals
- ↖ ↗ Sealing cardboard boxes
- ↖ ↗ Sterilization and testing kit seals
- ↖ ↗ Part labels
- ↖ ↗ Product seals
- ↖ ↗ Warning labels

PACKAGING

- ↖ ↗ 180 ft or 250 ft per roll.
- ↖ ↗ Varies with quantity ordered

SPECIFICATIONS

- ↖ ↗ Standard residue line includes OPENED
- ↖ ↗ Fade resistant ink
- ↖ ↗ Multi layer release
- ↖ ↗ Stocked in 2" wide rolls
- ↖ ↗ 250 ft per roll yields approximately 330 – 9" numbered sections
- ↖ ↗ 180 ft per roll yields approximately 240 – 9" numbered sections

FEATURES

- ↖ ↗ Available in custom colors
- ↖ ↗ Tamper evident
- ↖ ↗ Serial numbering for control and the ability to track the application
- ↖ ↗ Custom message – OPENED appears if removed
- ↖ ↗ Easy to handle
- ↖ ↗ Universal application
- ↖ ↗ Cost effective
- ↖ ↗ Fits on standard tape gun

APPLICATION INSTRUCTIONS

- ↖ ↗ Remove tape from roll or backing and apply to a clean surface
- ↖ ↗ Apply tamper label to the device of your choice and press firmly
