GripTight PP Seal

The **GripTight PP Seal** is a versatile pull-tight seal manufactured from two dissimilar materials. The acetyl insert is unique in design as it incorporates two sets of locking teeth molded in one insert, unlike similar seals requiring two separate inserts. The acetyl will withstand freezing and boiling conditions, while the polypropylene body remains flexible for easy use. The design includes rolled heat staking technology to secure the insert to the body, which provides clear evidence of tampering if forced open or cut. There is also a **tear off tag** for easy removal, making this a very user friendly seal suitable for most applications.

Common Applications:

- Airline & Catering Carts
- Fuel & Oil Tankers
- Trailer & Container Doors
- Cash bags
- Gaming machines & Casino carts
- Mail bags, Fire doors, Lockers, Evidence bins

Specifications:

- Materials: Polypropylene with an acetyl insert
- Overall Length: 37cm (14.57")
- 3.9 mm diameter ribbon (0.1535")
- 26mm x 50 mm tag (1" x 1.97")
- Hot stamped printing
- Average Breaking Strength: 18kg (40 lbs)
- 10 per strip, 1000/case
- 13 lbs per box
