

Dickey Manufacturing Company

H-Seal

The H-Seal is a versatile smooth flat ribbon pull-tight seal manufactured from Polypropylene material with a stainless steel clip insert.

The design features rolled heat staking technology to secure the metal spring insert to the body, which provides clear evidence of tampering if forced open or cut. The standard seal is manufactured with gripping spikes making the seal suitable for securing a variety of cloth or plastic bags.

Use the H-Seal where high strength is a requirement.

The seal is available in a standard length of 40 cm (15.9”).

Common Applications:

- Air, Rail, & Sea Freight
- Fuel & Oil Tankers, Cargo Trailers
- Refineries
- Cash & Coin bags
- Warehouse and Security Doors
- Mail bags, Lockers, Evidence bags
